WAYNESBORO NURSERIES INC.
WAYNESBORO, VIRGINIA.

May 1, 1938.

P L A N T N O W

While Fruit is cheap and Prices of Trees Low. Virginia's largest growers of Fruit

Trees can save you money on your trees if you will act at once, while a good assortment of varieties is available.

It is not possible to carry a complete line until the end of the planting season, so we are closing out the varieties we still have at almost HALF PRICE. We may have the very varieties you would buy if paying full price. The small supply we now have will soon move at these prices, so we urge you to act quickly.

PRICES QUOTED ARE FOR OUR TREES PACKED, FOB. WAYNESBORO, VA. Advise how you prefer shipment made, unless you can come here in your truck for your trees.

Our trees are now in storage, where they can be held dormant for one month yet if necessary, but we recommend planting as soon as possible as the sooner planted the more growth they will make this season.

These greatly reduced prices are intended for commercial planters using trees in large quantities. So on lots of less than 100 we must add 10% to these prices. We can accept orders at these reduced prices only for trees we have in storage, available for Spring '38 delivery.
